Epstein, child trafficking is international in the news. The Dutch Royals are family and are doing the same, espionage, using children, as we will explain in this article.

How the top of the pyramid is stealing children and uses them to control their managers is what will be discussed in this eye opening article.

Dutch former model talks about the eyes-wide shut cult / espionage

A former Dutch top model, that worked world wide in the top of the pyramid for the Dutch government, to spy on Rothchild's, Rockefellers amongst others and worked 18 years in the top of the pedophile rings, came to Alice, Alice interviewed her as an experienced detective and recorded this conversation and many others.

There have been many attacks on the live of the former top model, for that reason her identity is protected. The top model was deep connected, she worked 18 years for the Dutch government international, visited for the Dutch Government events in Davos and many other (royal) places, working at the top of the pyramid in their interest. She was MK Ultra programmed by the Dutch Military in Almelo to spy for the Netherlands and programmed to forget her activities. While performing. She performed at Eyes wide shut type of events, which are real and happening on the highest levels all over the world.

These events are to control , to compromise politicians and other targets on behalf of 300 top families. The top of the pyramid wants to control the level below them, that is working for them. Only managers that are compromised , controllable, are offered a career, If they obey and perform well, they are extremely rewarded.

When she waked up from her MK Ultra program, she started careful to spy on how the system is working, learned to use the specific language in the pedo rings and their habits. She wanted to get her memories back, that were hidden / stolen from her. She learned that in Psychiatric clinics from the 37 patients there were 28 victims (75%) talking about their MK Ultra sexual abuse and activities, having issues with their memories coming back when they are getting older, their childhood trauma's and their mind control, these victims are telling the truth about what happened to them. Trauma based mind controlled victims often get their memories or a part of the memories back, when they are getting older. The witnesses are put in mental clinics and turned into zombies, to erase the evidence.

She explains that the victims are hit on special places when they are raped hit on their Collini which causes the release of endocrines that causes ADHD or psychoses , they hit at the bottom of the skull to make the skull wider cerebrum , by hitting their with the nockless the child becomes submissive, afraid and forget . Via torture the kids become programmable , Augustas for spying , for liquidation, for seducing without seks, for sexual rituals, for models these rituals are not violent, no marks , lot of circles and topless, always 7 stallions from Hollywood, starting actors that need to perform and obey to get their career in the movie industry. The former model told the names of actor, some of them are very famous now, as a reward. The top model confirms again that the Dutch Government is taking children, places them in MK Ultra training facilities at Military basis, turning these children via rape and torture and an MK Ultra program into controllable's assets to spy and work for the Dutch Government.

The Netherland is hosting 80 % of all the child porno world wide

This by itself is embarrassing enough for the Dutch people. The story is horrible, if you are not used to how bad the pedophiles are, I advise you not to read further, just promise never to leave your child again to the professional child care takers.

Under the control of the Dutch royal family and the Government child porno is offered to the global pedophile rings. If you watch the Netflix documentary the "Cyberbunker", you will learn that the Dutch royal family is deeply connected with the hosting centers.

The Dutch independent journalist Jolanda Vlaskamp published about childporno and the fact that the majority global is hosted in the Netherlands.

Doorgestuurd van  Jolanda Vlaskamp NEDERLAND WAT IS ER GAANDE

The former top model explained how this is possible and how this child pornography is organized. She explained how the Dutch are getting that much child porno material, the answer to that question makes every parent sick and very careful who to trust to take care of their child.

The top model discloses the child porno network

I received a lot of information on how the Dutch pedophile ring is working regarding to child traffic, child sexual abuse and child murder and who are all connected, the complete conversation is on tape and valuable evidence for future crime research and tribunals that will come in the very near future.

International import and export of children, is a trade of the Dutch government.

The top model received a tip from an informer. Via a worker at Kindergarten Billie in Amsterdam, where by the staff porno pictures were taken from the little children that were brought by their parents, the parents are normal Dutch people completely unaware of what the kindergarten is secretly doing with the children, mostly babies, the parents trusted these so called professional child care centers. With the very little girls the vagina was opened , pictures were made or objects were inserted in these very little children vagina or ass. Again to be very clear, these babies are of ordinary people that have no idea what is done with their children. The porno picture are put in an envelope with a specific product code. Each week the pictures were collected in boxes. The codes are like your passport code, meaningful to the collector.

The picture, go first to the producer, the seller on the internet,

The very young children are forced to sit on objects 6 month baby's , small dildo s like a lolly in the children mouth in and out , video , of onely the mouth penetration

The pictures went to Amsterdam herengracht , international trade, from their a part went to Rotterdam denes , station Rotterdam , junkies you can order kids here, from there it went to Zwolle, chambre of commerce , old building grey .

The top model, being well trained on espionage, recognized the art pieces from previous meeting, when she was on active duty, working as an MK Ultra spy for the Government. She saw the same grey building, the same , bridge, the same art that she remembered.

She knew how to make this evidence and threw a couple of rock s to the picture of the king of the Netherlands. This would trigger the police, and register the crime scene.

A policeman from the inner circle of the king came, recognized her. The top model explained there are two types of police, the type that would like to tranquilize her and bring het to a mental institute, these cops work for the system.

There are also good policemen, that are hones and are looking into crimes, also the child abuse and traffic, this policeman she knew was protecting her and helped her escape. There will be now hard evidence of this incident in the police records, it is in the files and went via the police radio's. The location of this chambre of commerce and the child pornography is known to the Dutch police.

The trade in children of any age, color, or race is organized by the Dutch government. Pedophiles have the phone numbers to order per age any number of children they want

The Dutch Government knows where to get the children and how to market

Trading is not only for sexual purpose, the former model explains, also for taking to specific islands, where they are trained for specific tasks and be functional at an age of 26, 36, 40, suddenly placed in the politics, people never heard off.

The mystery guest / politician

Just watch, how often you see suddenly someone in the politics, with no family, no history. These people are MK Ultra trained assets. Stolen at a young age, brought to an island to become a completely controllable asset of the government and to perform a specific task when they are grown up. How many times did you see a young politician suddenly elected, or selected by the government, while that person was never a candidate. Sometimes you will see a fixed person in the neighborhood, the handler, who has to guide the placed asset.

It is shameful how the Dutch government and royal family are

- Involved with creating the child pornography
- The trade in porn material
- The trade in children
- The stealing of children for sexual / ritual purposes
- The stealing of children, to turn them in usable assets for them many years later

The former top model has made many more interviews, all recorded and useful for future release / evidence. Her mission is to find her own truth and disclose to the world what happened to her and to others that have been used by the government.
